Supplement to Comments of the Bad River Band of the
Lake Superior Tribe of the Chippewa Indians

The Bad River Band of the Lake Superior Tribe of the Chippewa Indians (the "Tribe") submits the following supplement to its comments in response to the proposals set out in Public Notice, DA 13-323, released March 29, 2013 (the "Public Notice"). The Tribe notes that the census blocks for the Bad River Reservation identified in the Public Notice omitted several populated census blocks on the reservation and this omission was not corrected in the spreadsheet attached to the Tribe's original comments. That same spreadsheet also misidentified the county of a number of census blocks in Iron County, Wisconsin. The attached supplemental technical statement and spreadsheet correct these errors.

Respectfully submitted,

Matthew L. Leibowitz
Joseph A. Belisle
Counsel for the Bad River Band of the
Lake Superior Tribe of the Chippewa Indians

**Supplemental Technical Statement of Scott Ritchie
Bad River Band of the Lake Superior Tribe of the Chippewa Indians
Tribal Service Area**

This supplemental technical statement is filed as a supplement to the Technical Statement contained within the comments of The Bad River Band of the Lake Superior Tribe of Chippewa Indians (the "Tribe"). The purpose of this supplemental statement is to amend the originally filed spreadsheet detailing additional Census Blocks that are hereby requested be included in the Tribal Mobility Auction 902. These Census Blocks make up the proposed Tribal Wireless Service Area.

In the original spreadsheet, 51 Census Blocks incorrectly identified their associated county. This is corrected on the attached spreadsheet. The corrected Census Blocks are all within Iron County.

The attached spreadsheet also adds an additional 33 Census Blocks. A number of populated yet underserved Census Blocks within Tribal reservation boundaries were identified after the original comments were prepared. The Tribe hereby requests these 33 additional census blocks be added to the Bad River Tribal Lands for purposes of this Auction. They are identified on the attached spreadsheet as Reservation Lands.

As with all Census Blocks listed on the attached spreadsheet, the proposed additional Census Blocks within the Reservation are underserved. This was determined through multiple inquiries. We contacted Tribal members living both on the reservation, and in the adjacent communities. Tribal members have stated there is limited or no wireless service in each of these Census Blocks. In the rare instance where there is wireless coverage, only analog or 2G service exists. In order to verify this fact, I contacted each of the wireless service carriers in the area. Sales representatives from each of the carriers confirmed there is no 3G or 4G service in any of the zip codes corresponding to the Census Blocks for the proposed service area.

I certify that the forgoing is true and correct to the best of my knowledge and belief. I have over 20 years experience in the wireless and broadcasting industry, and am technically qualified to make these statements.

Scott D. Ritchie
